D-RDW – Diversity-Driven Random Walks

Random Walks for News Recommender Systems

Runze Li, Lucien Heitz, Oana Inel, Abraham Bernstein

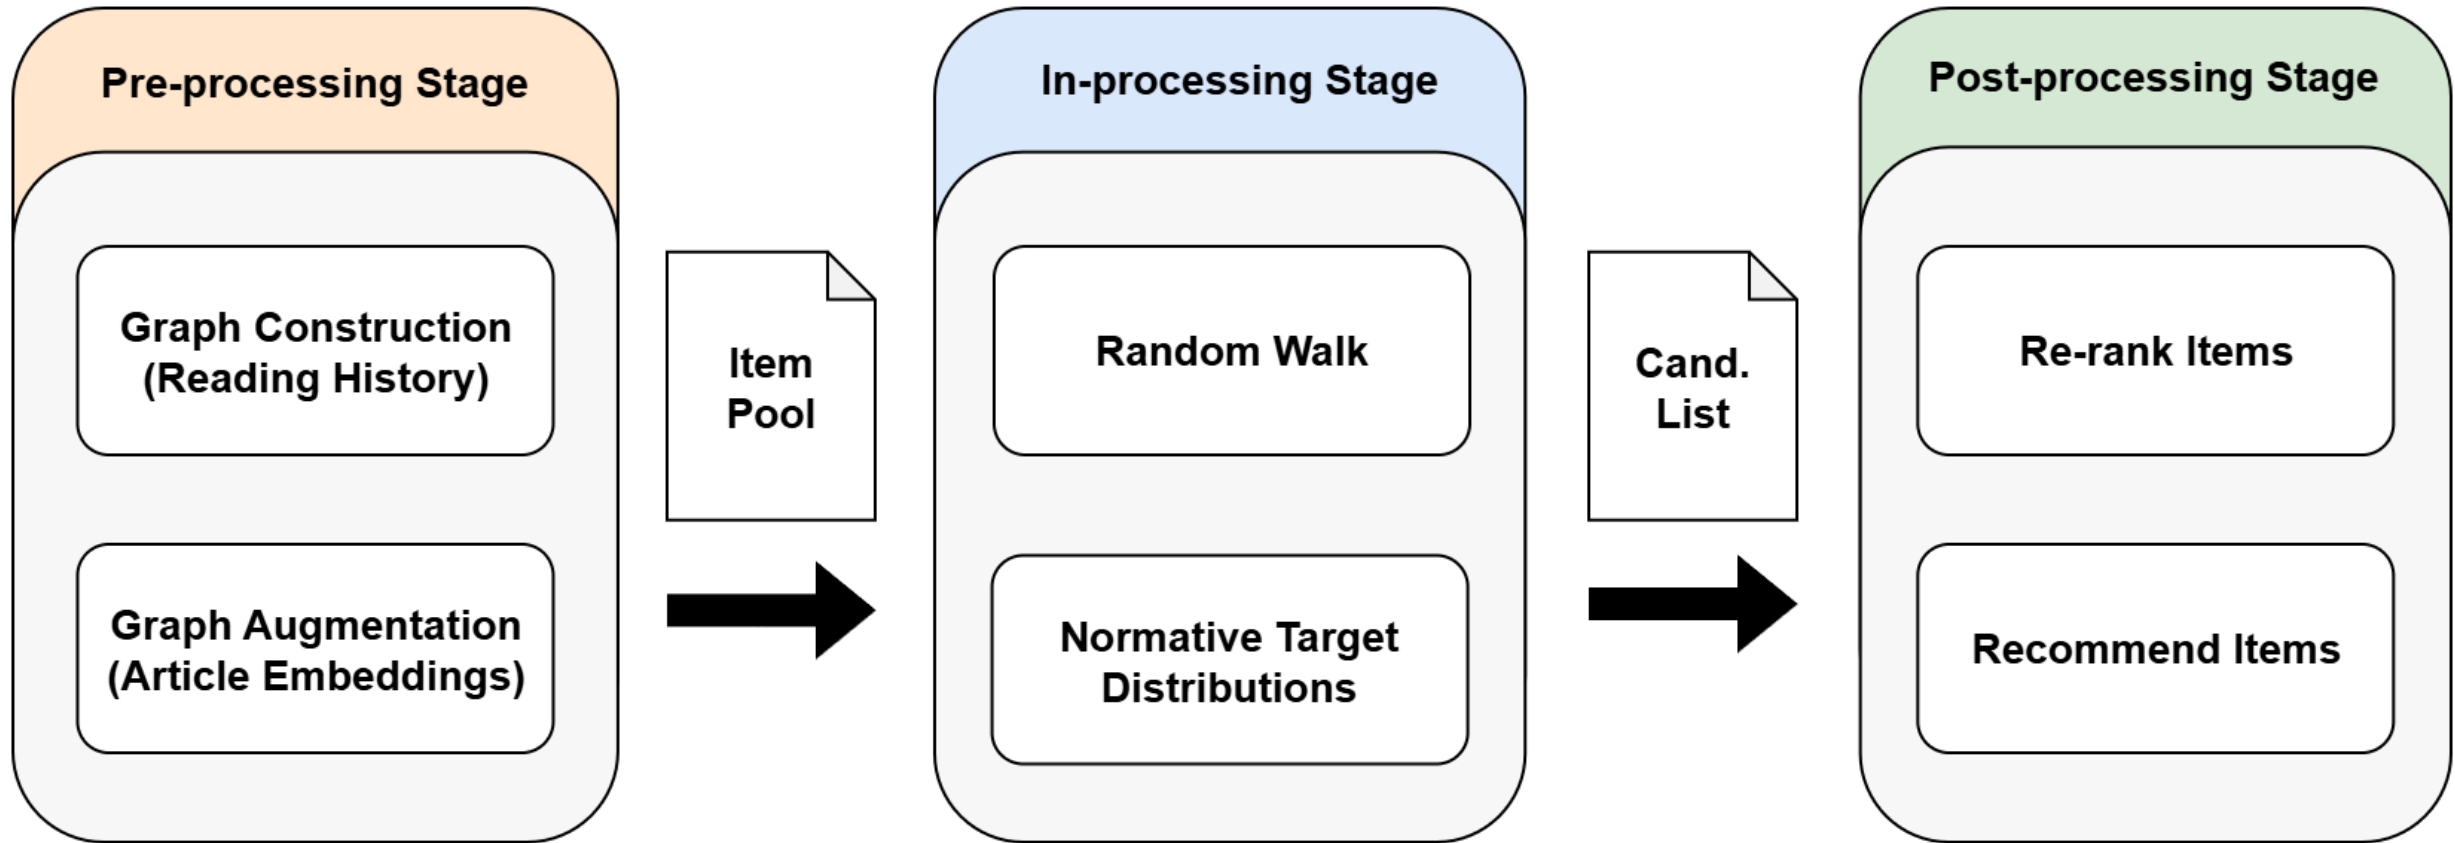

23 September 2025

Diversity-Driven Random Walks

- Incorporate norms and values
- Extendable and customizable
- Diversification with random walks
- Light-weight and domain-agnostic

D-RDW Pipeline

Evaluation and Results

(Top 20, EB-NeRD Small)

Metric	D-RDW	RP3 β	LSTUR	NRMS
Calibration (Category, $\downarrow$)	0.407	0.415	0.433	0.509
Fragmentation (Party, $\downarrow$)	0.394	0.582	0.610	0.632
Gini (Party, $\downarrow$)	0.250	0.856	0.874	0.880
ILD (Party, $\uparrow$)	0.789	0.392	0.343	0.326
Compute Cost (RP3 β = Base)	4x	1x	110x	100x

D-RDW: Diversity-Driven Random Walks

- Incorporate norms and values
- Excellent item diversification
- Light-weight & cost-efficient
- Stay tuned for more...
